TO OUR CUSTOMERS

AND THOSE WE DESIRE TO INTEREST IN OUR GOODS

WE TAKE great pleasure in presenting for your inspection, this, our Thirty-fourth Semi-annual Catalog, which describes and illustrates what in our judgment, is the most complete line of Ladies' Boots and Low Shoes we have ever shown. We have put into each sample the highest possible value and the smallest possible advance in price consistent with the high cost of all shoe materials.

The line includes a large and well balanced list of all the staple goods, and is especially strong in the latest and best novelties.

We have now in process of erection a large addition to our now extensive plant, which will give us about forty-five thousand square feet more floor space, and add about one thousand pairs to our daily capacity.

This addition will be completed in time to assure prompt delivery of goods for the coming season.

We wish to thank our friends for the large volume of business given us the past season, and to give assurance that we shall spare no effort to make their future dealings with us mutually pleasant and profitable.

Yours very truly,

The Dally Shoe Co.

GUARANTEE

WE GUARANTEE reasonable service in the material and workmanship of all our goods, when they are given proper care, and where suitable selection for the service expected has been made, **except patent and enamel leathers.** We use only the best makes of patent and enamel leathers, but these leathers are so effected by temperature and require so much care in handling that **we do not guarantee them at all.**

We use every endeavor to give our patrons the best materials, and the highest possible values for the prices charged, in all our goods.

Where **just complaints** are made by the wearers of our shoes, on goods we guarantee, we will make reasonable allowance, but we are not willing to give new shoes for old ones, where the consumer has gotten the best value out of the goods while they were new.

If dealers will properly fit the feet, and the wearers select the kind of shoe suitable to the service required, none will be found superior to ours in style, comfort and durability.

We give below a descriptive list of our full line of heels, and opposite each the numbers which indicate the several heights each style is made. By referring to the different columns it can be seen just what styles are made in each height.

Your attention is called to the styles of heels prefixed by a *, which heels are the same general character as the one preceding with the exception of being longer, these styles being added in compliance with a strong demand for longer heels in order to give better support to the arch of the foot.

READ CAREFULLY

:: INSTRUCTIONS FOR ORDERING ::

PARTIES desiring to order will find in this Catalog nearly all the styles represented by cuts. Select the one you think best represents the shoe you desire, under which is given the sample numbers of all the shoes we make in that style, separated as to kind, whether McKay, Turn or Welt.

By turning to the sample numbers in the descriptive pages will be found the kind of material used, and the rest of the description in detail. If the cut represents to the eye, and one of the descriptions describes about the style of shoe you want and that sample number given, together with width and sizes, we are almost certain to please.

Any attempt made to change the shoe as described, usually leads to confusion and dissatisfaction.

Where weight of stock is not specified, we aim to put in a nice medium substance for service, and if customers have preference for light or plump stock, they should be sure to indicate the same in ordering.

We make goods wanted for immediate use in from three to four weeks. Orders taken early in the season for future shipments are frequently completed and forwarded before date of invoice, a convenience to ourselves and an advantage to our customers.

The prices of our shoes are based on careful figuring and arranged for the terms below. Longer time, larger discounts, or dating bills ahead, if offered by our competitors, must result in furnishing goods of less value.

OUR TERMS ARE

4 PER CENT OFF CASH 10 DAYS.

3 PER CENT OFF CASH 30 DAYS.

“SPECIALS” FOR SPRING, 1907

TO MEET the demands of our trade, it is necessary for us to run our factory to its utmost capacity all the time. There is always an interim between the time we finish cutting one season's orders and the time we receive those of the new season in sufficient quantities to cut our full capacity. To cover this interim, we have endeavored to anticipate the wants of our customers on some staple lines which we have put into the works as “Specials,” and we will have them made up ready to distribute on orders as they are received, or to ship out at once for immediate needs. It is not our intention to carry these “Specials” as regular stock goods, but only to supply them for immediate shipment so long as we have a surplus over orders not shipped.

Weekly bulletins will be issued, giving a list of the goods we have ready for immediate shipment. These bulletins will be mailed regularly to those of our customers *who request it*, or a copy of the latest bulletin will be sent at any time on request.

Below we give a descriptive list of the goods we are making “Special” for Spring 1907, and we believe it will be to our customers' advantage to use them in their regular orders as much as possible, for convenience in duplicating.
